Description of Works	Value
REPAIRS	£3,848.00
<p>To manufacture and install 2no. heavy duty Titan industrial hand chain. The shutter curtain will be constructed using galvanised finished 22g traditional curved laths secured with end locks - complete with inverted T section bottom rail with stick on neoprene seal. Also to include for nylon draught brush seal within a aluminium carrier fixed to clients soffit panel across the head of the opening. The coil assembly will be constructed using the correct barrel size calculated, dependant on the door size. Manually operated roller shutters to be torsion spring assisted. The manual hand chain gear assemblies will be constructed using 5 DP cast barrel gears driven via cast hand chain wheels with drive pinions. Shutter to be complete with anti-fall back device to comply with BS EN 12604. The device is rated for the weight and barrel diameter of the door. The galvanised side guides are to be mounted on 75 x 50 angle, the depth of the guides calculated in relation to the shutter size (roller shutters over 4500 wide wind locked as standard). Locking to be via a padlockable hand chain keep (Additional locking options available). 2no. to suit prepared structural openings of 2500mm wide x 3000mm high</p>
