Description of Works	Value
BREAKDOWN REPAIRS	£360.00
Site Date: 14/03/2020 Report of gate not working, searched site but no gate to be found, after speaking with residents they noted that it was the car park shutter that was at fault and hadn't worked for a few days. Found shutter in raised position with no errors on display. Powered unit down and reset system. Replaced batteries in safety edge transmitter as a precaution, cleaned guide rails, lubricated drive chain, cleaned photocell and reflector. Cleaned some debris from curtain end lock plates, checked all for security and they seem fine. Tested extensively, waited until resident came and tested remote operation. All ok, left fully operational with shutter in closed position and site secure.
