<p>Asset ref - A-14333 The motor has seized and requires replacement with new. To re attend site, create a safe working space and remove the faulty motor and replace with new. Due to the size we will need to hire 2 no hop up towers and a genie lift to remove the barrel. To be done within normal working hours.</p> <p>Asset ref- A-14362 Gate needs a full detailed electrical inspection that falls out of the remit of a general service. 5 of the 7 mag locks do not work, safety photocells do not work, 3 of 4 edges work, door only operates in Deadman currently, 2 edges need to be refixed to the carrier. To re attend and carry out full electrical inspection and attempt a full repair within normal working hours.</p> <p>Asset ref A-14361 To return within normal working hours. Investigate edge issues, provide new electric edge at 1950mm for internal facing edge, raise up slightly so it does not interfere with door catch, investigate other edge to ensure it works properly, and check over edge controller</p>
