Description of Works	Value
A-13589 - SPEED DOORS (Entrance) w3w: spot.home.tags	
TIME AND MATERIALS Site Date: 03/06/2025 1st Hour/Travel: £305.00	
Work Details: The engineer attended the site and confirmed that the door operated correctly upon arrival. Both the fobs and radar were tested and functioning properly. Multiple residents were observed entering and exiting without any issues. During inspection, a broken bracket for the antenna was identified, which may be contributing to intermittent fob problems. Additionally, the light curtain sensors were found to be quite dirty and were cleaned during the visit. A new antenna bracket is required; a temporary repair has been made for now. The fobs currently have a range of over 50 feet both inside and outside the car park. Further work is needed to fully resolve the issues.	£305.00
